

Handicrafts Association of Bhutan (HAB)

Executive System Audit: Admin Panel Controls, Database Mappings & Public Frontend Impact

CSOA Reg: CSO/2011/043
Edition: 2026 Production Baseline
Date: September 2026

1. EXECUTIVE OVERVIEW & ARCHITECTURE

The Handicrafts Association of Bhutan platform operates an end-to-end synchronized architecture connecting the **Secretariat Admin Panel (/admin)**, a robust **PostgreSQL database (Prisma ORM)**, and the **Public Website (Next.js App Router)**. Every piece of public information—including event listings, donation pillars, master artisan honours, membership dues, catalog items, and logistics terms—is dynamically driven by the database with real-time administrative controls and resilient default safety fallbacks.

2. MASTER MODULE QUICK REFERENCE MATRIX

Admin Module & Route	Administrative Capabilities (CRUD)	Database Table(s)	Public Impact Location
Site Settings & CMS /admin/site-settings	Update Tagline, Hero Lede, Stats, Mandate, Wholesale MOQ, Bank Wire / SWIFT, Dispatch Times	SiteSetting	Homepage (/), /about, /contact, /wholesale, /checkout, /order-confirmation/*, Global Footer
Events & Expos /admin/events	Create, edit, reorder, delete exhibitions, masterclasses, and national craft festivals	EventRecord	/events (Card Directory), /events/[key] (Event Page), /news (Calendar)
Donate Settings /admin/donate-settings	Manage 4 support pillars (targets, descriptions, icons), view live donation ledger & receipts	SupportPillar DonationRecord	/donate (Live Progress Bars, Contribution Receipts HAB-DON-YYYY-XXXXX)
Honours & Masters /admin/honours	Confer master craftspeople, Royal Seal awards, Seal of Authenticity, citations & portraits	HonourRecord	/masters (Conferred Masters Gallery & Filter Chips)
Membership Categories /admin/membership-categories	Configure 4 dynamic tiers, annual dues in Nu./USD, criteria, and benefits	MembershipCategory	/membership (Five Ways to Belong Matrix), /membership/[category], /register
Clusters & Outlets /admin/clusters-outlets	CRUD artisan villages, stories, visitor notes, and retail outlets (Punakha Crafts Market)	ClusterRecord OutletRecord	/clusters, /clusters/[key], /outlets, /outlets/[key], /craft/[craft]
Zorig Chusum Crafts /admin/crafts	Edit Dzongkha & English names, historical essays, materials, tools, and techniques	Craft	Homepage 13 Crafts Grid, /craft/[craft], /shop filter rail, /wholesale
Product Inventory /admin/products	Catalog inventory, prices in USD & BTN, maker links, photos, stock counts, wholesale tiers	Product WholesaleTier	/shop (Catalog), /product/[code] (Product Page), /wholesale/shop, POS
Orders & Fulfillment /admin/orders	Track orders, change status (Paid, Processing, Shipped), assign Bhutan Post EMS tracking	Order OrderItem	/track-order (Live Tracking), /order-confirmation/*, Member Portal
Member Directory /admin/members	Verify, edit, suspend artisan members, profile bios, contact info, and guild tiers	Member	/members (Directory), /members/[slug] (Artisan Bio), /portal
Applications Queue /admin/applications	Review new member submissions, verify CID/trade licenses, approve or reject	Application Member	On approval, newly verified members appear instantly in directory and can sign in

Admin Module & Route	Administrative Capabilities (CRUD)	Database Table(s)	Public Impact Location
Inquiries CRM /admin/inquiries	Review contact submissions from public site, assign internal notes, update status	Inquiry	Receives submissions from public /contact form
Content & Policies /admin/content	Edit statutory policies (Shipping, Terms, Privacy), publications (PDFs), news & governance	PolicyPage Publication NewsArticle	/shipping, /terms, /privacy, /publications, /news, /about#governance
Programmes & Projects /admin/programmes & projects	Manage 11 statutory pillars (Article 3.2) and partner-funded development projects	ProgrammePillar Project	/programmes, /programmes/[ref], /projects, /projects/[key]
Hero Carousel /admin/hero	Add, reorder, or edit homepage slider images, display titles, and CTA links	HeroSlide	Homepage (/) top rotating carousel
Navigation Menus /admin/navigation	Manage header menu dropdowns and footer 4-column link layout	NavigationItem	Header and Footer across every page on the website
Users & RBAC /admin/users	Create staff logins, assign roles (Super Admin, Operator, Viewer), reset credentials	User, Role	Governs access to /admin/login and administrative capabilities
Reports & Audit /admin/reports & audit	Export financial CSVs, monitor security incidents, inspect rate-limit events	AuditLog RateLimitAttempt	Secretariat Internal Oversight & Compliance Records

3. IN-DEPTH OPERATIONAL BREAKDOWN BY MODULE

1. Site Settings & Global CMS

/admin/site-settings

OPERATIONS SUPPORTED

READ UPDATE

DATABASE & APIS

Model: SiteSetting PUT /api/admin/site-settings

Organized into specialized tabs: *General* (taglines, statistics), *Contact* (addresses, phone numbers, P.O. Box), *About Page* (official mandate, history, objectives, values), *Wholesale* (MOQs, lead times, 5 assurance cards), *Checkout* (BoB official account, SWIFT, branch, mBOB notes), *Donate* (fundraising lede, tax exemption notes), and *Logistics* (carrier partners, transit times).

PUBLIC FRONTEND IMPACT

Directly feeds Homepage (/), About (/about), Contact (/contact), Wholesale (/wholesale), Checkout (/checkout), Order Confirmation (/order-confirmation/[orderNumber]), and the global footer.

2. Events & Exhibitions Management

/admin/events

OPERATIONS SUPPORTED

CREATE READ UPDATE DELETE

DATABASE & APIS

Model: EventRecord CRUD /api/admin/events

Controls exhibition titles, categories (*Exhibition, Masterclass, Trade Expo, National Festival*), dates, venues, organizers, craft disciplines, schedule timelines, and registration buttons.

PUBLIC FRONTEND IMPACT

Immediately populates the filterable directory on /events, dynamically provisions dedicated event pages on /events/[key], and updates the calendar on /news.

3. Donate Settings & Contributions Ledger

/admin/donate-settings

OPERATIONS SUPPORTED

CREATE READ UPDATE DELETE

DATABASE & APIS

Models: SupportPillar, DonationRecord CRUD /api/admin/support-pillars

Allows administrators to define fundraising pillars (target amounts, raised totals, icon badges, descriptions) and review the immutable audit ledger of all public donor contributions.

PUBLIC FRONTEND IMPACT

The public donation page on /donate renders live funding progress bars. Online donations generate official receipts (HAB-DON-YYYY-XXXXX) and increment pillar totals in real-time.

4. Honours & Master Artisans

/admin/honours

OPERATIONS SUPPORTED

CREATE READ UPDATE DELETE

DATABASE & APIS

Model: HonourRecord CRUD /api/admin/honours

Manages national craft accreditations, conferred master artisans, Royal Seal recipients, Seal of Authenticity awardees, citations, dzongkhags, and portraits.

PUBLIC FRONTEND IMPACT

Populates the Master Artisans gallery on /masters, filterable by award type and traditional craft specialization.

5. Membership Categories & Dues

/admin/membership-categories

OPERATIONS SUPPORTED

CREATE READ UPDATE DELETE

DATABASE & APIS

Model: MembershipCategory CRUD /api/admin/membership-categories

Maintains guild tiers (Individual, Enterprise, Group, Supporter), annual dues in BTN (Nu.) and USD, eligibility criteria, registration steps, and member entitlements.

PUBLIC FRONTEND IMPACT

Renders the "Five ways to belong" comparative matrix on /membership, generates dedicated tier landing pages on /membership/[category], and dynamically calculates dues on /register.

6. Clusters & Physical Outlets

/admin/clusters-outlets

OPERATIONS SUPPORTED

CREATE READ UPDATE DELETE

DATABASE & APIS

Models: ClusterRecord, OutletRecord CRUD /api/admin/clusters, .../outlets

Maintains registered artisan clusters across Bhutan (member counts, village histories, visitor notes) and physical craft markets (Punakha Crafts Market, opening hours, facilities, directions).

PUBLIC FRONTEND IMPACT

Feeds /clusters, /clusters/[key], /outlets, /outlets/[key], and the cluster associations on /craft/[craft].

7. Product Inventory & Wholesale B2B

/admin/products

OPERATIONS SUPPORTED

CREATE READ UPDATE DELETE CSV IMPORT/EXPORT

DATABASE & APIS

Models: Product, WholesaleTier CRUD /api/admin/products

Controls retail and trade inventory: product codes (e.g. THAG-001), USD & BTN pricing, artisan attribution, origin dzongkhag, materials, photography, stock levels, and wholesale tiered pricing against MOQs.

PUBLIC FRONTEND IMPACT

Drives the retail shop (/shop), product details (/product/[code]), wholesale purchasing (/wholesale/shop), and the administrative POS checkout (/admin/pos).

8. Orders, Fulfillment & Tracking

/admin/orders

OPERATIONS SUPPORTED

READ STATUS UPDATE ASSIGN TRACKING

DATABASE & APIS

Models: Order, OrderItem GET, PUT /api/admin/orders

Enables Secretariat staff to transition orders through fulfillment stages (Pending, Paid, Processing, Shipped, Delivered), attach international Bhutan Post EMS tracking numbers, and download invoices.

PUBLIC FRONTEND IMPACT

Updates the public shipment tracking portal on /track-order and the receipt tracking view on /order-confirmation/[orderNumber].

9. Statutory Content, Policies & Publications

/admin/content

OPERATIONS SUPPORTED

CREATE READ UPDATE DELETE

DATABASE & APIS

Models: PolicyPage, Publication, NewsArticle CRUD /api/admin/content

Complete content management for statutory legal policies (Shipping, Terms, Privacy), downloadable executive publications (PDF Annual Reports, Strategic Plans), and newsroom articles.

PUBLIC FRONTEND IMPACT

Renders live legal policies on /shipping, /terms, /privacy; downloads on /publications; and articles on /news and /news/[slug].

10. Security, RBAC & Immutable Audit Logs

/admin/users & /admin/audit

OPERATIONS SUPPORTED

CREATE READ UPDATE REVOKE SESSIONS

DATABASE & APIS

Models: User, Role, AuditLog, RateLimitAttempt CRUD /api/admin/users

Governs Secretariat staff logins, multi-factor authentication (2FA), role assignments (*Super Admin, Staff Operator, Trustee Viewer*), session revocations, and audit records of all administrative actions.

OPERATIONAL IMPACT

Secures all /admin/* routes behind JWT token checks. Enforces durable sliding-window rate limiting on public endpoints to prevent abuse.

4. CORE ARCHITECTURE GUARANTEES

- 1. DB-First with Resilient Fallback:** Every public page queries the live PostgreSQL database first. If any table or record is ever empty, the system gracefully falls back to canonical default records (CLIENT_DATA), ensuring zero 404s, broken layouts, or blank screens.
- 2. Zero Hardcoded Content:** All public headlines, body narratives, bank details, dues amounts, and logistics terms are 100% editable from the Admin Panel.
- 3. Strict Security & CSOA Compliance:** All administrative modifications are permanently logged in the AuditLog table with actor ID, IP address, and timestamp in compliance with Civil Society Organizations Act of Bhutan (2007) guidelines.
